Women's Studies

Elective Course Offerings Fall 2013

WMST 297.1001-Women, Science and Technology, TR 1:00pm-2:15pm

Dr. Danielle Roth-Johnson

(May be used to fulfill Social Science requirement.) A sociological look at women and other underrepresented groups in science and technology. Topics include the history of scientific representations of women, people of color and the poor; the low percentages of underrepresented groups in scientific and technological professions; gender and race in the cultures of science and technology; contemporary applications of science and technology to bodies; the re-envisioning of science and technology in science fiction by writers such as Octavia Butler.

WMST 473/673.1001-Chicana Feminism, M 10:00am-12:45pm

Dr. Anita Revilla

(Satisfies Multicultural Requirement.) Examines Chicana/Latina experiences as they intersect with race, class, gender, sexuality, and nation. Examines the work of Chicana/Latina writers, feminists, scholars, performers, artists, filmmakers, and activists. Focuses on issues such as immigration, labor, family, language, education, spirituality, identity, patriarchy, homophobia, and racism.

Prerequisites: WMST 101 or WMST 113. 3 credits.
