# Academic Advising

The University of Nevada, Las Vegas supports 11 academic advising centers. Each of the academic advising centers is housed in a college so that students who enroll in particular majors are able to meet with academic advisors who are knowledgeable about every major in the college. There are 4 methods of obtaining academic advising: 1) face-to-face appointments, 2) telephone appointments, 3) online academic advising, and 4) group academic advising. Please contact the academic advising center of your major to determine which of the 4 methods are available for in your advising center.

By far, the preferred method of academic advising is experiencing face-to-face appointments. 77% of UNLV students desire to meet in person with an advising professional to discuss degree plans, course rotations, and timely graduation. At this point, the average wait time to meet with an academic advisor during the high traffic seasons is 3 days.

Because academic advisors are interested in the success of every student at UNLV, it is important to schedule an appointment with an academic advisor in the intended major as soon as possible. Regardless of your major, there is an academic advising center housed in each college at UNLV.

Specifically, academic advising offers a supportive environment for accomplishing the following:

- Reviewing four & five year graduation plans
- Accessing degree audit records
- Connecting with faculty in your department
- Customizing a course schedule based on a balance in your academic and personal life
- Connecting with an advocate for your success
- Providing registration advice
- Learning about referrals to appropriate services and opportunities for your involvement
- Finding answers to your questions about your major(s)
- Seeking information that will keep you connected with the campus community
- Understanding policies regarding your admission status
- Assisting with access to your mid-semester grades so academic intervention may be possible

The primary goal of academic advising is to meet with students on a one-on-one basis to discuss personal and professional goals and to develop a plan for meeting them. For your convenience, there are several ways to accomplish academic advising prior to arrival on campus in the fall. More information about contacting the appropriate academic advising center can be located at: <http://advising.unlv.edu/> or by calling (702)895-1267.

**Note:** Each college offers tailored advising for its students. Hours and services are subject to change. Please call ahead for an appointment or to confirm walk-in hours.

# Rebel Policy Snapshots

## *UNLV Student Conduct Code:*

<http://studentlife.unlv.edu/judicial/StudentConductCode.pdf>

## *Academic Misconduct:*

### **Statement of Purpose**

UNLV is first and foremost an academic community, with its fundamental purpose the pursuit of learning and student development. UNLV believes that any instance of academic misconduct hurts the entire community, and that the values of honesty, trust, respect, fairness, responsibility and professionalism are paramount. Therefore, to uphold and support standards of personal honesty and integrity for all members of the campus community consistent with the goals of a community of scholars and students seeking knowledge, it will be the policy of UNLV to enforce these standards through fair and objective procedures governing instances of alleged student academic misconduct.

### **Expectations**

Academic integrity is a legitimate concern for every member of the campus community; all share in upholding the fundamental values of honesty, trust, respect, fairness, responsibility and professionalism. By choosing to join the UNLV community, students accept the expectations of the Academic Misconduct Policy and are encouraged when faced with choices to always take the ethical path. Students enrolling in UNLV assume the obligation to conduct themselves in a manner compatible with UNLV's function as an educational institution.

### **Honesty**

Honesty is the foundation of teaching, learning, research and service; and the prerequisite for full realization of trust, fairness, respect and responsibility. Students and faculty alike must be honest with themselves and others.

### **Trust**

The UNLV community fosters a climate of mutual trust, encourages the free exchange of ideas, and enables all to reach their highest potential. Only with trust can the public at large believe in the social value and meaning of an institution's scholarship and degrees.

### **Fairness**

We strive to establish clear standards, practices, and procedures and expect fairness in the interactions of students, faculty and administrators. Important components of fairness are predictability, clear expectations and a consistent and just response to dishonesty.

## Respect

As an academic community of integrity, we recognize the participatory nature of the learning process and honor and respect a wide range of opinions and ideas. Students and faculty must respect themselves and each other as individuals. All must show respect for the work of others by acknowledging their intellectual debts.

## Responsibility

Every member of an academic community – each student, faculty member and administrator – is responsible for upholding the integrity of scholarship and research. Individuals must take responsibility for their own honesty and must discourage and seek to prevent misconduct by others.

## Professionalism

Because students are aspiring professionals, our community expects them to exercise professional conduct during their career as students and uphold the core value of academic integrity.
