APPROVED BY: [Signature] 7/31/12
Lori L. Temple, Vice Provost for Information Technology Date

APPROVED BY: [Signature] 7/31/12
John Valery White, Executive Vice President & Provost Date

APPROVED BY THE PRESIDENT: [Signature] 8/1/12
Neal J. Smatresk Date

REVISION DATE: NA

STATEMENT OF PURPOSE

The purpose of this policy is to:

- Create a secure network environment for UNLV's computer and network resources by establishing different levels of network access to meet the needs of UNLV staff and students as well as the general public.
• Ensure UNLV is in compliance with the Nevada System of Higher Education (NSHE) guidelines and network security best practices.

ENTITIES AFFECTED BY THIS POLICY

Entities affected by this policy include UNLV students and employees and anyone who accesses the UNLV network.

WHO SHOULD READ THIS POLICY

UNLV students and employees and anyone who accesses the UNLV network should read this policy.

POLICY

The UNLV network is divided into publicly accessible and non-publicly accessible areas. Systems may be placed on the UNLV network only in consultation with and with the approval of the Office of Information Technology (OIT). Systems in the non-publicly accessible areas of the network can be accessed only through methods approved by OIT.

Refer to the Office of Information Technology's Policies and Procedures web page at <http://oit.unlv.edu/about-oit/policies> for additional information and contact information for questions about the policy.

DEFINITIONS

These definitions apply to these terms as they are used in this policy.

Network – An underlying infrastructure of cabling, equipment, and management software that electronically transmits and directs the flow of information among devices.
