Rebel Wellness Zone Internship

**Job Title:** Rebel Wellness Zone (RWZ) Internship

**Area:** Health, Recreation & Wellness  
**Level/Number:** Appointment Only, Uncompensated

**Description:** Under the supervision of the professional staff in the Department of Wellness Promotion, the RWZ Intern Student(s) will have opportunity to gain practical experience in the following areas: research, planning, conduction and assessment of wellness/recreation programs/events; social marketing/social media; professional career development; peer education leadership; and related operations of a fitness and wellness facility. Additional and/or special projects may be assigned as needed. Programs, activities and events occur throughout the year and will be at various times and locations based on need and best practices.

**Responsibilities may include (will depend on skill level):**
- Research, prepare reports and present information on specific topic areas
- Assess needs and plan programs using evidence-and theory-informed practice
- Plan and conduct a program/event on campus
- Collaborate with other practicum students, interns, graduate, undergraduate and professional staff as needed
- Market and promote programs, activities, services and presentations
- Provide customer service as a resource for information regarding the SRWC, including the facilities, programs and services of all components (Campus Recreation, Student Wellness)
- Develop/revise social norming campaigns
- Develop/revise educational or promotional videos
- If needed, work in the RWZ at the assigned office area
- Attend mandatory meetings and semester orientations
- Other duties as assigned

**Minimum Qualifications:**
- Current enrolled undergraduate or graduate student in public health, kinesiology, biology, nutrition, communication, business, graphic design, social work or related field
- Excellent interpersonal skills mandatory

**Knowledge or Special Skills Required:**
- Outstanding research ability (both web-based and print), organizational, and writing skills
- Strong presentation skills
- Willingness to adapt to change and work in high-energy environment
- Outstanding technical skills including: MS PowerPoint, Excel and Word
- Additional special skills may be required for projects

**Experience:** Variable. Training provided for conduction of programming.

**Time Commitment:** Variable as per academic program requirements, programming and staffing needs. Note programming/trainings may take place during business hours, evenings and/or weekends.
