JT3 SUMMER INTERNSHIP OPPORTUNITY

Posting ID: I011216
Company: JT3 LLC
Job Title: Student Intern
Position Type: Internship
College Major(s): EE, CPE, CS

Company Website: http://www.jt3.com/
Work Location: N/A
Salary: $21/hr, or Based on Performance
College Level(s): Junior, Senior, and Graduate

OVERVIEW

JT3’s 14-week Summer Internship Program offers students opportunities to learn and earn a paycheck while gaining valuable career experience. They’re looking for qualified and motivated students in:

- Real-Time Programming (e.g., C, VxWorks, etc.)
- Mathematical algorithm development (i.e., MatLab)
- Object-oriented development programming (in C++ and/or Java)
- Electrical engineering tasking in a variety of applications (mostly radar associated)

Requirements

- Junior or senior class standing; or enrolled in graduate-level engineering program
- U.S. citizenship
- Able to obtain and maintain a Top Secret/Single Scope Background Investigation (TS/SSBI)

Qualifications

- A declared major course of study in a least one of the following:
  - Electrical Engineering
  - Computer Engineering
  - Computer Science
  - Mathematics
- GPA and completed academic courses (e.g., engineering, computer science, math, etc.) will be considered
- Other skills and experience:
  - Strong computer skills (e.g., MS Office applications, other COTS packages, etc.)
  - Any technical job/hobby experience
- For electrical engineering positions, coursework in electromagnetics and antenna theory is highly desirable.
