The U.S. Nuclear Regulatory Commission has an entry level engineering/physical science related employment opportunity that a graduating student may be interested in pursuing. We are especially interested in students who have a background in water resources engineering, surface-water hydrology, and hydraulic engineering. Applications are currently being accepted and can be accessed at: https://www.usajobs.gov/GetJob/ViewDetails/360004900.

OR

This is a terrific full time, permanent entry level opportunity at the NRC which is proud to be ranked as a BEST Place to Work in the Federal Government.
