MAJOR TO CAREER GUIDE
B.S. Biology with an Education Concentration
College of Sciences

Mission of the College of Sciences
The College of Sciences offers programs in life sciences, chemistry, geoscience, mathematical sciences, physics and astronomy, and water management. The college has created a well-rounded curriculum by combining practical and empirical knowledge with scientific fundamentals and principles, which provides a solid foundation for a successful career in the sciences and other professional programs. The student-faculty relationship, hands-on research, and community service help ensure that students who graduate are prepared for whatever path they choose.

About the Biology Career
Studying biology teaches us to ask questions, make observations, evaluate evidence, and solve problems. Biologists learn how living things work, how they interact with one another, and how they evolve. They may study the evolution, natural history, and conservation of plants and animals; investigate the interactions of living organisms with light, the environment, or each other; or have careers in pharmaceuticals, biotechnology, or medical research. Their work increases our understanding about the natural world in which we live and helps us address issues of personal well being and worldwide concern, such as environmental degradation, threats to human health, and maintaining viable and abundant food supplies.

Value of a Biology Degree in Education
Biology teachers guide students in discovering the marvelous logic, efficient simplicity and the design behind a myriad of complex events in nature. The technological revolution has added an infectious new excitement to the lessons of biology. Biology education today provides access to new knowledge, helping people understand how things happen in the natural and physical environment. The employment outlook for biology education students is excellent. Graduates of the biology education degree program are prepared to teach biology in high schools and also have the necessary basic preparation to enter a career in industry or pursue an advanced degree in science.

UNLV Academic Advising for Science Majors:

Academic Advisors who are eager to meet with students about their academic goals and to assist in constructing a plan for graduation. Advisors can also help students understand how their experiences at UNLV can lead to a career in their desired field.

College of Sciences Advising Center
Phone: 702-895-2077
Campus Location: MPE-A 130

Biology Education Career Options
The Education concentration is designed for students seeking exceptionally strong backgrounds for professional teaching careers that include biology as a first teaching field. Students completing the Biology - Education curriculum also enroll in course work to satisfy the Minor in Secondary Science Education in the UNLV College of Education.

Professional and Student Organizations
The College of Sciences has a number of organizations students can get involved in, whether it be hosting professionals from different scientific fields, or working with the dean to address issues of concern for science students.

Students are encouraged to get involved with these societies and groups early on!

Alpha Epsilon Delta – Pre-health Honor Society
American Nuclear Society
Association of Pre-Health Professionals
Biology Graduate Student Association (BIOS)
Chemical Interactions (American Chemical Society Student Affiliates Chapter)
Graduate & Professional Student Association (GPSA)
Minority Science Students Program (MSSP)
Undergraduate Council (UC)

Graduate Program:
Master of Science or Doctor of Philosophy

We offer both Ph.D. and M.S. degrees in biology with concentrations in Cell and Molecular Biology, Ecology and Evolutionary Biology, Integrative Physiology, and Microbiology. The Ph.D. is research intensive and is designed to prepare students for careers in academia, government, or industry. The M.S. degree is less research intensive than the Ph.D. and is designed to prepare students for a diverse set of science-related careers.

Helpful Career Information

Visit the Career Occupational Handbook to learn more about a specific occupation:

http://www.bls.gov/ooh/

The OCH covers hundreds of occupations and describes: What They Do, Work Environment, How to Become One, Pay, and more. Each profile also includes BLS employment projections for the 2010–20 decade.

Career Exploration/Planning

FOCUS 2: UNLV’s computerized assessment that profiles your interests, abilities, and values and helps you find a career that’s right for you.

http://hire.unlv.edu/careerAssessment.html

Myers-Briggs Type Indicator (MBTI): Assessment designed to identify how you are energized, how you take in information, how you make decisions, and how you approach life.

http://hire.unlv.edu/careerAssessmentMBTI.html

Strong Interest Inventory: Generates an in-depth assessment of your interests among a broad range of occupations, work and leisure activities, and educational subjects.

UNLV Career Services

Career Services encourages ALL UNLV students to take advantage of their services, which include:

• Assistance with developing a career plan and choosing a major
• Career counseling and guidance on building a RESUME
• Preparing for an interview, assistance with job searching and networking.

Phone: 702-895-3495
Campus Location: SSC-A 2nd Floor
