

MAJOR TO CAREER GUIDE

Nuclear Medicine

Division of Health Sciences

Mission of the Division of Health Sciences

UNLV's Division of Health Sciences — along with other health science-related programs in the Nevada System of Higher Education — is addressing today's pressing needs and making tomorrow's discoveries.

The division is comprised of the schools of Dental Medicine, Nursing, Community Health Sciences and Allied Health Sciences. Guided by a mission that demands UNLV serves its community, the division is using research, education, training, and service to form unique public and private partnerships. These partnerships are helping provide quality health care to the underserved, educating future professionals, and exploring ways to improve the health and well-being of our citizens. Taken together, UNLV is helping build a foundation for a healthier and more vibrant Nevada.

About Nuclear Medicine

Nuclear Medicine is the medical specialty that utilizes the nuclear properties of radioactive and stable nuclides to make diagnostic evaluations of the anatomic and/or physiologic conditions of the body and to provide therapy with unsealed radioactive sources.

The Nuclear Medicine Technologist is an allied health professional who, under the direction of an authorized user, is committed to applying the art and skill of diagnostic evaluation and therapeutics through the safe and effective use of radionuclides.

UNLV Academic Advising for Nuclear Medicine Majors:

Academic Advisors who are eager to meet with students about their academic goals and to assist in constructing a plan for graduation. Advisors can also help students understand how their experiences at UNLV can lead to a career in their desired field.

Nuclear Medicine Career Options

The Nuclear Medicine Technologist is an allied health professional who, under the direction of an authorized user, is committed to applying the art and skill of diagnostic evaluation and therapeutics through the safe and effective use of radionuclides.

Program Application Process

All students must be admitted into the Pre-Nuclear Medicine program , complete the pre-requisites, and then apply to the full Nuclear Medicine degree. Admission into this program is only offered in the even years of a Fall semester (Ex. Fall 2014, Fall 2016) . For more information visit:

<http://www.unlv.edu/degree/bs-nuclear-medicine>

The mission of the B.S. in Nuclear Medicine Program is to provide a high-quality undergraduate education experience for students in the diagnostic and therapeutic applications of nuclear medicine. The education experience is accomplished through rigorous classroom instruction, clinical experiences at local imaging facilities, and mentoring. The products of this experience are entry-level professionals capable of critical thinking, devoted to a lifetime of learning, able to effectively communicate with patients and medical personnel, committed to the ethical standards of their profession, and highly sought after by employers.

Professional Associations

Students are encourage to get involved with these organizations early on!

Air and Waste Management Association:
