

How Top Tier Impacts Employees

Improves Infrastructure

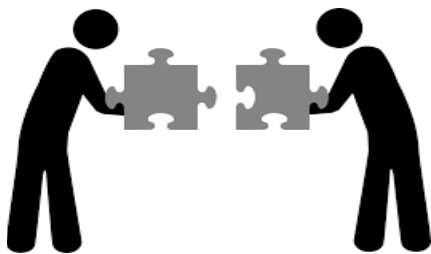

Since time is a precious limited resource for all of us, it is even more imperative to plan and partition our time to ensure maximum benefit – both personally and professionally. This includes ensuring balanced time management across the breadth of tasks the university and staff benefit from and depend upon in their daily activity.

Contributes to the UNLV climate

Creating a campus environment that is

- Proactive
- Inclusive
- Informed
- Involved

Further advancing the field, UNLV, and the Top Tier mission.

Enhances Resources

Achieving Top Tier status can increase university revenue.

Strengthens our Reputation

Enhanced value of undergraduate and graduate degrees in the professional communities which, in turn, will create more dedicated and generous alumni.

Enriches our Community

Through collaborations that stimulate economic development and expand our connections, we are creating a community for our families and friends.
