COUPLE AND FAMILY THERAPY ADVISING

We are dedicated to the personal and academic development of our students, the advancement of the theoretical and applied body of knowledge of its disciplines, and the improvement of public policy and professional practices. Undergraduate study in the Family Studies Minor prepares students to pursue graduate work in family studies, human development, marriage and family therapy, or the mental health field. In addition, this minor will enhance personal growth, interpersonal skills and increase understanding of relational, diversity and sexual issues. This is accomplished by participating in a dynamic partnership of interdisciplinary learning, service, and scholarship that is founded on active collaboration among students, faculty, professionals, and community members.
