

Cultivating Leaders Who Transform Business

DUAL DEGREE: MASTER OF BUSINESS ADMINISTRATION & MASTER OF SCIENCE – MANAGEMENT INFORMATION SYSTEMS

The dual MBA and MS – MIS program of study is designed to cultivate leaders within the area of management information systems. The program will provide students with the needed skills, knowledge, and tools to become visionary and creative business leaders with strong competency in management information systems. The MBA program is designed to provide students with those skills necessary to make decisions, have a strategic perspective, an understanding of the global dynamics of business and the ability to integrate decisions and solutions across disciplines. The MS – MIS portion of the dual degree is designed to prepare graduates with a broad-based knowledge of information system design, development, implementation, evaluation, and maintenance.

The program includes 54-credits and the student will receive both, an MBA and a MS in Management Information Systems. Each student completes 24 credit hours of MIS courses and 30 credit hours of MBA core. MBA courses are accepted as hours of elective towards the MS – MIS degree. The program does not require a thesis.

Admission Requirements

The admission requirements for the dual degree program are the same as each of the MBA and M.S. – Management Information Systems programs. Applicants must be admitted to each of the MBA and M.S. – Management Information Systems programs. Candidates have to apply to the MBA/MS – MIS Dual Degree program and meet the application requirements of each of the programs respectively.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.
