Lee Business School
BSBA Degree, Management, 2018-2019

All businesses need skilled managers. The major in management provides students with a broad background in all areas of business administration. Professional courses in human resource management, quantitative analysis, operations and production management, organizational behavior, international management, the role of business in our society, the role of labor in our society, plus seminars in current management issues and problems prepare the student for a variety of jobs within the business organization. A typical progression for a management graduate might begin with a job as an assistant manager within a group, then head manager, then a promotion to a district manager.
