			3
			3
			1
*An internship in Food & Beverage is strongly advised, to enhance your career opportunities.			

HOW DO CONCENTRATIONS WORK?

Hospitality Management Majors have the option to take a generalist approach by completing the Hotel Elective section of their program worksheet with courses of their own selection.

Students wishing to focus their studies may do so by selecting one of the approved concentrations.

Declaring a concentration can take place anytime after the student has been admitted. It is necessary to make an appointment with an academic advisor in order to declare a concentration.
