

GRC470.1001 Design & Media Studio IV

The syllabus and problem statements will be your guides throughout the semester. Refer to them often. You will be responsible to know and understand this information. The class schedule may be subject to change and will notify in the class and via email for the official announcement. Failures of achievement will be your own responsibility.

Course Objectives:

The goal of this course at the advanced level in the graphic design studio is to aim at practical problem-solving in corporate identity system. Students will explore enhanced graphic design experiments from the knowledge and disciplines they have gained from prior major design studios. Class assignments are composed of identity design systems such as understanding a relationship between symbol and signature, stationery, signage & wayfinding, advertising and package design. Through the diverse activities of assigned learning tasks, students will demonstrate design research & methods, analysis of design matters and incorporating design systems. Students will achieve professional skills including how to help with consumer services and their business growth.

Design Research and Process:

Research and process are a major part of this studio. The final solutions will certainly be important, but will have very little meaning if you haven't completed the necessary supporting information. The following process will be evaluated for each project:

- Research and analysis (Visual and written research through the book and web resources)
- Idea development (Sketches, survey, recommendation, etc.)
- Finished comprehensives

Grading Policy:

Each project will be graded based on the criteria established in each problem statement and problem objective. The final grade will be given a letter grade based on a system of points for each assignment, and projects will be weighed in importance based on the complexity of the concepts and the solutions required.

Grading criteria:

1. Design research and following process
2. Participating group critiques and presentations (Presentation, discussion, involved in a critique)
3. Diverse experiments (Challenge, various solutions/idea and unlimited methods)
4. Aesthetic visual form and functional communication
5. The method of conveying a message.
6. Meet the final required guidelines.

Deadlines

All assignments have due dates assigned. Refer to the schedule for your section. We will adhere to these dates unless something catastrophic occurs. A written doctor's explanation is required if a due date is missed due to illness. Discuss problems with your professor in advance so he can anticipate a problem and act accordingly. **All projects are due at the beginning of the class. Projects turned in after the start of the class will be marked LATE.**

Each assignment including exercises and projects is comprised of certain points. Students are responsible for following each assignment based on given guidelines. For a successful accomplishment of this course, students must be obligated to the academic policy and course syllabus.

Grade:

*** Final Grade Points: based on the total points divided by the number of given assignments.*

A = 96-100%, A- = 90-99%, t, B+ = 87-89%, B = 84-86%, B-=80-83%, C+ = 77-79%, C = 74-76%, C- =70-73%, D+ = 67-69%, D = 64-66%, D-=60-63%, F = 0-59%

Grading Point: See the attached rubric guideline

Design process: 30%

Challenge and accomplishment:
20% Innovative and unique
concept: 20% Quality of the final
outcomes: 30%

Attendance:

Attendance is mandatory. It is required that you attend every class. If a class is missed, the student is responsible for making up missed work. Three or more absences will negatively impact your final grade. Six or more absences will result in failure. Consideration will be extended to legitimate excused absences: illness, family emergency, religious observations, involvement in university-sponsored activities. With any extenuating circumstances, discuss the situation with your professor. We are here to assist you in your pursuit of an education.

*** Being late class three (3) times will be counted as one absence.*

Transparency in Learning and Teaching—The University encourages application of the transparency method of constructing assignments for student success. Please see these two links for further information: <https://www.unlv.edu/provost/teachingandlearning> or <https://www.unlv.edu/provost/transparency>

Incomplete Grades—The grade of I—Incomplete—can be granted when a student has satisfactorily completed three-fourths of course work for that semester/session but for reason(s) beyond the student's control, and acceptable to the instructor, cannot complete the last part of the course, and the instructor believes that the student can finish the course without repeating it. The incomplete work must be made up before the end of the following regular semester for undergraduate courses. Graduate students receiving "I" grades in 500-, 600-, or 700-level courses have up to one calendar year to complete the work, at the discretion of the instructor. If course requirements are not completed within the time indicated, a grade of F will be recorded and the GPA will be adjusted accordingly. Students who are fulfilling an Incomplete do not register for the course but make individual arrangements with the instructor who assigned the I grade.
