Total Credits at UNLV: 78

Degree Total: 138

Director's Note: Even if the Associate's degree is complete, it will take at least another 4 years to complete the degree. Certificates or minors are an option if credits are needed for full-time status. Reverse transferring is also an option for those coming to UNLV from an NSHE Community College. Transfer group advising is by major.

Program Specific Information: All fine arts require 42 upper-level credits. Application to upper division via portfolio review after completion of all lower division requirements. Differential tuition applies to all upper division coursework.

Architecture courses are offered on an annual rotation, beginning in the spring semester. Please see a UNLV Advisor or Architecture faculty for more information. If beginning architecture courses are not taken in the spring, graduation from UNLV could be pushed back an entire year.

Transfer Policies:

REVISED 50/50 RULE

The policy stating that UNLV will only accept up to 60 credits to be transferred and applied to any specific program/major is no longer in place. Unless a college/major has a specific requirement on credit limitations i.e., Lee Business School, College of Education, transfer credits from 2-year institutions should no longer be limited to 60 credits. At least 30 credits of upper division from UNLV are now required to obtain a Bachelor's.

REPEAT POLICY

- Students may retake a CSN course as often as needed to gain a better grade and, thereby, a higher grade point average. Only the highest grade received will count as part of the total CSN grade point average. All repeated courses taken at CSN will remain as part of a student's permanent academic record.

*PLEASE NOTE: While CSN accepts the BEST grade, UNLV accepts the LAST grade.

- To improve GPA and change the original grade the course must be repeated at the institution that it was completed. For example, if a student takes MATH 124 at CSN and receives an F the course must be repeated at CSN to replace the grade and improve the GPA.

REVERSE TRANSFER

- Students who have earned 15 or more credits at CSN and have transferred to a four-year institution without an associate's degree may "reverse transfer" the earned credits from the four-year institution to complete an associate's degree. This process makes it possible for students to earn an associate's degree as they continue to work toward completing their bachelor's degree.

NOTE: Some courses that fulfill specific general education requirements at CSN may fulfill different general education requirements at UNLV. Please see a UNLV/CSN Transfer Program Advisor to confirm your choices.
