Please note

1. Students who are not enrolled in a semester do not have access to university resources (i.e. student Libraries access - they would have community member privileges).
2. Enrollment waivers are ideal for students who missed the previous semester deadlines and are very close to completing requirements, thus do not need campus resources and can save money by not enrolling. It is expected that students will submit all milestone requirements within the first three weeks of the semester. They should also submit all graduate college forms and requirements within the first four weeks to graduate that semester.
3. Students should announce their defense at least 2 weeks before the defense meeting.
4. Students should also ensure they have a graduation application on file.
5. Students not enrolling should check-in with [financial aid](#) regarding loan status.
6. If you are an international student, please check with [OISS](#) on your eligibility for an enrollment waiver.
7. Students must be active to qualify for an enrollment waiver. If the student hasn't enrolled in the last 3 semesters, please contact your RPC coordinator for next steps grad.rpc@unlv.edu.
