

Graduate Experimental Course (X-Course) Creation in Curriculog

A step-by-step guide

STEP 1: Curriculog Login

1.1 Access: <https://unlv.curriculog.com/>

1.2 Login using your UNLV ACE account. (see <https://www.it.unlv.edu/ace>)

STEP 2: Select the “Experimental Course (X-Course) Create” form

A Graduate Experimental Course, or “X-Course,” allows for the expedited creation of a pilot course to determine whether or not the course should be created on a permanent basis. Typically, this means faculty will be looking at how the course would fulfill requirements or meet the demand of a program/course content, the impact on student learning and progression, etc. **X-Courses can only be offered a maximum of two times and within a two-year limit after approval.**

2.1 Click on “New Proposal” under the “My Proposals” tab at the top left:

2.2 Click on the checkmark “Start Proposal” icon on the Graduate Experimental Course (X-Course) Create form row:

STEP 3: Complete sections I, II, III and IV then launch and submit the form.

In general, the form is self-explanatory and clear about what is requested. In this guide we will review selected items that may generate questions or have further technical steps.

Syllabus

Cross-listed / Combined courses have only one syllabus that includes all the information for all courses being cross-listed/combined.

Graduate courses that are linked to undergraduate courses (300/500 and 400/600 level joint courses) must clearly state in the syllabus how the class experience and expectations are different for graduate students, what additional requirements students enrolled in the graduate level course must fulfill, and how the grading scale will be applied to graduate students.

Please attach an accessible syllabus by navigating to the “attach a file” icon at the right of the form (as illustrated above).
