Program Specific Information:

GPA 2.75 or above – Comprehensive Medical Imaging PRE. Program requires formal application for the Ultrasound and Radiologic Sciences options. Must apply to the full degree in February. CT/MRI option is only available to students who are already certified in Radiological Sciences. See link for program admissions information <http://www.unlv.edu/hpds/admissions>. Students are admitted based on overall GPA and letter of intent. Around 12 students are accepted for the Ultrasound option, while 24 are accepted for Radiologic Sciences. The general A.S. is recommended for the B.S. in Comprehensive Medical Imaging at UNLV.

What is the difference between CMI and Radiography in work terms?

1. All three Comprehensive Medical Imaging programs (Radiography, Ultrasound, and CT/MRI) require an application to move into the full major. Students are "pre-Comprehensive Medical Imaging" majors until they gain admission to the major. Applications are accepted in February of each year for all CMI programs.
2. Radiography accepts approximately 24 students per year, whereas Ultrasound accepts just 12. CT/MRI is unique because it requires students to first be a Certified Rad Technology before they can apply. CT/MRI typically only has 1 or 2 active students due to the credentialing needed to enter the program.

Transfer Policies:

REVISED 50/50 RULE

- The policy stating that UNLV will only accept up to 60 credits to be transferred and applied to any specific program/major is no longer in place. Unless a college/major has a specific requirement on credit limitations i.e., Lee Business School, College of Education, transfer credits from 2-year institutions should no longer be limited to 60 credits. At least 30 credits of upper division from UNLV are now required to obtain a Bachelor's.

REPEAT POLICY

- Students may retake a CSN course as often as needed to gain a better grade and, thereby, a higher grade point average. Only the highest grade received will count as part of the total CSN grade point average. All repeated courses taken at CSN will remain as part of a student's permanent academic record.

*PLEASE NOTE: While CSN accepts the BEST grade, UNLV accepts the LAST grade.

- To improve GPA and change the original grade the course must be repeated at the institution that it was completed. For example, if a student takes MATH 124 at CSN and receives an F the course must be repeated at CSN in order to replace the grade and improve the GPA.

REVERSE TRANSFER

- Students who have earned 15 or more credits at CSN and have transferred to a four-year institution without an associate's degree may "reverse transfer" the earned credits from the four-year institution to complete an associate's degree. This process makes it possible for students to earn an associate's degree as they continue to work toward completing their bachelor's degree.

NOTE: Some courses that fulfill specific general education requirements at CSN may fulfill different general education requirements at UNLV. Please see a UNLV/CSN Transfer Program Advisor to confirm your choices.
