Program Specific Information: All science and math courses transferred from another school require a grade of C or better (C- is not sufficient) before enrollment in any upper division biology course. To declare a major in the College of Sciences, current students must have a UNLV GPA of 2.5 and place into MATH 126 or higher.

English Writing Choices: ENG 407A, ENG 405B, ENG 407B, or ENG 407C

Transfer Policies:

REVISED 50/50 RULE

- The policy stating that UNLV will only accept up to 60 credits to be transferred and applied to any specific program/major is no longer in place. Unless a college/major has a specific requirement on credit limitations (i.e., Lee Business School, College of Education), transfer credits from 2-year institutions should no longer be limited to 60 credits. At least 30 credits of upper division from UNLV are now required to obtain a Bachelor's.

REPEAT POLICY

- CSN courses may be repeated as needed to increase GPA. All repeated courses attempted at CSN will remain as part of the student's academic record. NOTE: CSN accepts your best grade for GPA recalculation and degree requirements.
- UNLV BIOL and CHEM-prefix courses may be attempted three times, inclusive of all grades, withdrawals, audits, and incompletes. All repeated courses attempted at UNLV will remain part of the student's academic record. NOTE: UNLV accepts your last grade for GPA recalculation and degree requirements.
- Students seeking to repeat a course for GPA improvement must repeat that course at the institution where it was completed. For example, a student who completed MATH 124 at CSN and earned a D must re-take the course at CSN to improve the GPA.

REVERSE TRANSFER

- Students who have earned 15 or more credits at CSN and have transferred to a four-year institution without an associate's degree may "reverse transfer" the earned credits from the four-year institution to complete an associate's degree. This process makes it possible for students to earn an associate's degree as they continue to work toward completing their bachelor's degree.

NOTE: Some courses that fulfill specific general education requirements at CSN may fulfill different general education requirements at UNLV. Please see a UNLV/CSN Transfer Program Advisor to confirm your choices.
