Program Specific Information

Must have a 2.50 overall GPA for admission into the Kinesiology BS Degree, (C or better required in Math 124 and all BIOL courses. C- is NOT passing). All BIOL courses must be less than 10 years old.

Transfer Policies:

REVISED 50/50 RULE

- The policy stating that UNLV will only accept up to 60 credits to be transferred and applied to any specific program/major is no longer in place. Unless a college/major has a specific requirement on credit limitations i.e., Lee Business School, College of Education, transfer credits from 2-year institutions should no longer be limited to 60 credits. At least 30 credits of upper division from UNLV are now required to obtain a Bachelor's.

REPEAT POLICY

- Students may retake a CSN course as often as needed to gain a better grade and, thereby, a higher-grade point average. Only the highest grade received will count as part of the total CSN grade point average. All repeated courses taken at CSN will remain as part of a student's permanent academic record.
  *PLEASE NOTE: While CSN accepts the BEST grade, UNLV accepts the LAST grade.
- To improve GPA and change the original grade the course must be repeated at the institution that it was completed. For example, if a student takes MATH 124 at CSN and receives an F the course must be repeated at CSN in order to replace the grade and improve the GPA.

REVERSE TRANSFER

- Students who have earned 15 or more credits at CSN and have transferred to a four-year institution without an associate's degree may "reverse transfer" the earned credits from the four-year institution to complete an associate's degree. This process makes it possible for students to earn an associate's degree as they continue to work toward completing their bachelor's degree.

NOTE: Some courses that fulfill specific general education requirements at CSN may fulfill different general education requirements at UNLV. Please see a UNLV/CSN Transfer Program Advisor to confirm your choices.
