Questions:

Question 1: The specifications state the following: “Contractor shall inspect the existing mast and neutralize or replace with installed solution certified to withstand up to 100 mile per hour wind force at the location identified in Exhibit A (or B).” Is structural engineer and wet-stamped drawings required for these locations to verify that the masts are certified to withstand 100 MPH winds? If not, how can we tell if they are?
Answer 1: Contractor is not to re-use any existing masts, install new to withstand 100mph winds, engineered drawings are not required.

ALL OTHER TERMS, CONDITIONS AND SPECIFICATIONS OF THIS INVITATION TO BID REMAIN THE SAME.
