Question 1: Does a Proposer need to list the electrical on its team?
Answer 1: The RFQ does not require a listing of subcontractors.

Question 2: Will an electrical contractor that is part of the research design team be precluded from bidding on the construction project?
Answer 2: Based upon the premise that a subcontractor would have minimal participation in the scope of work which would give no competitive advantage and consist merely of verification of pathways and panels, such a subcontractor should not be precluded from bidding.
