

UNLV INTERNATIONAL SUMMER SPACE COLLEGE MATH CAMP June 6-July 15

College students will have an opportunity to participate in a concentrated six-week long, space-oriented STEM experience. The purpose is to improve the actual knowledge of majors in the STEM disciplines and increase their numbers in the technology advanced workforce of the future.

Features

- Students will enroll in UNLV summer school session II, June 6 - July 8
- Freshman and sophomores will be the clientele
- The students will be provided a set of STEM space subjects from which at most two areas must be selected
- The STEM College Space Camp will be global
- Students from all countries and particularly US citizens will be recruited to join the program
- Students are expected to receive college credits for successful completion of summer classes

SpaceCamp 2016C

Instructor: Dieudonné Phanord

June 6- July 15

UNLV campus
