ASSOCIATE IN ENGINEERING (111392)

Posting ID:  
Company Website: www2.nstec.com
Company: National Security Technologies, LLC  
Work Location: North Las Vegas, NV
Position Type: Summer Internship  
Salary: n/a
College Major(s): Any Engineering  
College Level(s):

RESPONSIBILITIES
Candidate will support senior engineers in research, field work, and project documentation. Types of work to be completed will be material takeoffs from drawings, drafting reports, researching components, drafting, and independent research of special projects. Sharepoint upkeep, database maintenance, and 3D drafting will also be part of responsibilities. Intern will be responsible for self-monitoring of work and must be proactive. Also, perform other duties as requested. Accept individual responsibility and accountability for environment, safety, health, and quality processes within personal control, personal safety, and the safety of co-workers. Comply with established regulations and procedures for environment, safety, health, and quality and perform duties in a way that will not cause personal danger, endanger other individuals, or violate environment, safety, health, and quality regulations. Promptly correct or report any hazard or potential hazard to supervision. Understand the principles associated with the National Security Technologies, LLC (NSTec) safety concept. Participate in and embrace NSTec environment, safety, health, and quality initiatives.

QUALIFICATIONS
Completion of the first year of a Bachelor's degree program in a calculus-based Science, Technology, Engineering &Mathematics (STEM) field at an accredited college or university and be actively enrolled. Should have strong computer skills in relation to understanding and working with databases. Strong, independent work ethic. Willing to work in a dynamic engineering environment. Strong attention to detail. Comfortable and knowledgeable using Microsoft Word, SharePoint, PowerPoint, and Excel. Applicant selected will be subject to a Federal background investigation.
