

Abstract Guidelines

List authors (first name, last name) and your department. Abstracts should be a maximum of 200-250 words. Abstracts need to include a clear detailed summary of your research explaining the importance of the project to your field of study. Please do so in a manner that relates to a diverse audience. State the specific goals/objectives, methodology, results, and conclusion associated with your project in layman's terms. Please avoid technical jargon. Booklets containing participants abstracts will be distributed at the Research Forum.
