- [Home \(Faculty Insight\)](#)

Accessing the Tool

Access the tool from the Academic Analytics Portal, by clicking on the **Launch Tool** link in the **Faculty Insight** section.

The screenshot shows the Academic Analytics Portal for the University of Nevada, Las Vegas. The navigation bar includes 'Benchmarking', 'Research Insight', 'Analysis On Demand', and 'Alumni Insight'. The main content area is titled 'Strategic Tools' and contains a grid of tool cards. The 'Faculty Insight' card is highlighted with a red border and a blue arrow pointing to it from the right. The card for 'Faculty Insight' includes the text 'Give scholars control over their pre-populated profile.' and a 'LAUNCH TOOL' button.

Faculty Insight
Click the LAUNCH TOOL link to begin.

Begin your search by clicking on the **Search** tab from the **Home** page. You can search by *Research Topic*, which is the default setting, or search by *Scholar Name*.

Searching by Research Topic

Use the **Research Topic** search to find scholars, funding opportunities, collaborative networks, and recent activity of UNLV colleagues. Click the **Include National Data** checkbox within any search, at any level, to return national data. The information populated from these searches can be filtered, sorted, and downloaded.

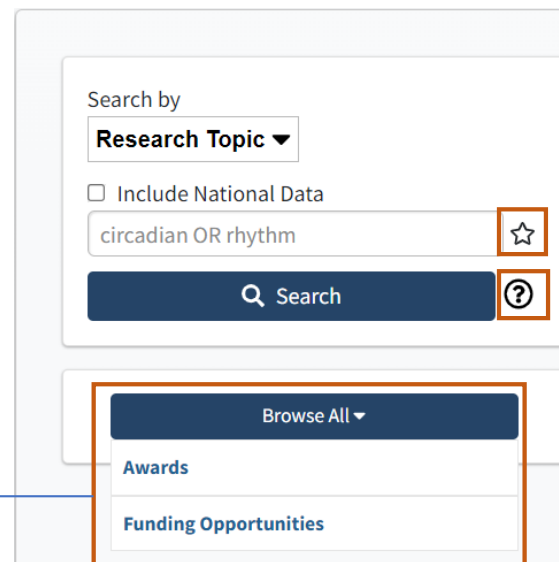

From the **Search by** dropdown list, select **Research Topic**. In the search textbox, type a research topic/keyword or area of interest. When finished, click the **Search** button. This search textbox performs Boolean searches. Click the help icon next to the **Search** button to learn about the Boolean Search syntax options.

Click the star icon next to the search textbox to save your search query. These saved search queries can be found by clicking on the **User Settings** dropdown and selecting **Saved Searches**.

Browse All

Use the **Awards** search to browse honorific awards from national governing societies. Searches can be filtered and award opportunities can be saved for future reference.

Use the **Funding Opportunities** search to browse all funding opportunities. Results can be filtered and saved for future reference.

Save Your Search

Click the star icon to save your search query. link to begin.

Boolean Search Syntax

Click the help icon to learn more about how the Boolean Search feature works.

Searching by Research Topic

Based on the research topic you entered into the search field, the **Scholars**, **Funding**, **Networks**, and **Recent Activity** tabs will be populated with the relevant information related to your search.

Scholars

This tab will populate scholars within the research topic criteria. From here you can view scholars by institutions, academic units, related collaborations, and related works.

Funding

Click this tab to locate (and be directed to) funding opportunities within the research topic criteria. From here you can sort by deadline, title, sponsor and amount.

Networks

This tab will display a network web of collaborators within your search criteria. This web will also indicate the type of faculty (UNLV or external), frequency of collaborations, and whether the collaborations were articles, books, conference proceedings, grants, patents, or presentations. You can click on any name to see more details.

The screenshot shows the Faculty Insight tool interface. At the top, there's a dark blue header with 'Faculty Insight' and 'User Settings'. Below the header, there are navigation links for 'Search', 'My Profile', and 'Help'. The main content area has a search bar with 'gait' entered and a 'Search' button. To the right of the search bar are tabs for 'SCHOLARS', 'FUNDING', 'NETWORKS', and 'RECENT ACTIVITY'. Below the tabs is a table of search results. The table has columns for 'Inst', 'Unit', 'Name', 'Related Collaborations', 'Related Works', 'Deg. Yr.', and 'Save'. Two results are visible: JANET S DUFEK (Kine. Kinesiology and Nutrition Sciences, Department of) with 9 related collaborations and 19 related works, and MERRILL LANDERS (Phys. Physical Therapy, Department of) with 5 related collaborations and 11 related works.

Inst	Unit	Name	Related Collaborations	Related Works	Deg. Yr.	Save
UNLV	Kine.	JANET S DUFEK Kinesiology and Nutrition Sciences, Department of	9	19	1988	☆
UNLV	Phys.	MERRILL LANDERS Physical Therapy, Department of	5	11	2012	☆

Recent Activity

Click on this tab to view recent activity within your search criteria. These results are provided by date and type of work (article, grant, patent, etc.).

Begin your search by clicking on the **Search** tab from the **Home** page. You can search by *Research Topic*, which is the default setting, or search by *Scholar Name*.

Searching by Scholar Name

Use the **Scholar Name** search to find scholars at UNLV. Click the **Include National Data** checkbox within to return national data. The search results will list up to 200 of the highest scoring scholars and can be further filtered by discipline.

From the **Search** by dropdown list, select **Scholar Name**. In the search textbox, type the name of a research scholar. When finished, click the **Search** button. This search textbox performs Boolean searches. Click the help icon next to the **Search** button to learn about the Boolean Search syntax options.

Click the star icon next to the search textbox to save your search query. These saved search queries can be found by clicking on the **User Settings** dropdown and selecting **Saved Searches**.

Browse All

Use the **Awards** search to browse honorific awards from national governing societies. Searches can be filtered and award opportunities can be saved for future reference.

Use the **Funding Opportunities** search to browse all funding opportunities. Results can be filtered and saved for future reference.

Save Your Search

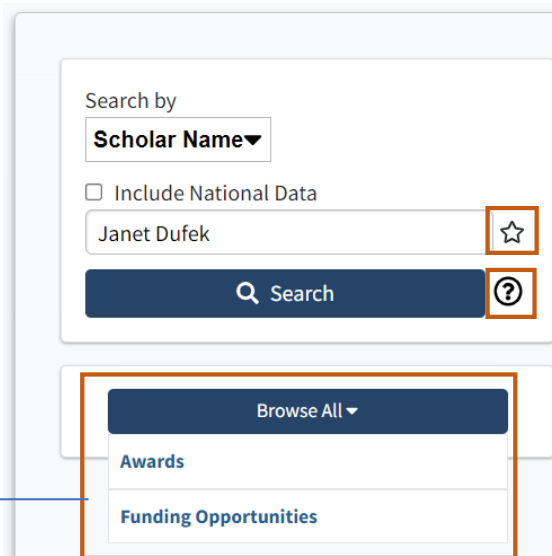

Click the star icon to save your search query. link to begin.

Research Profile

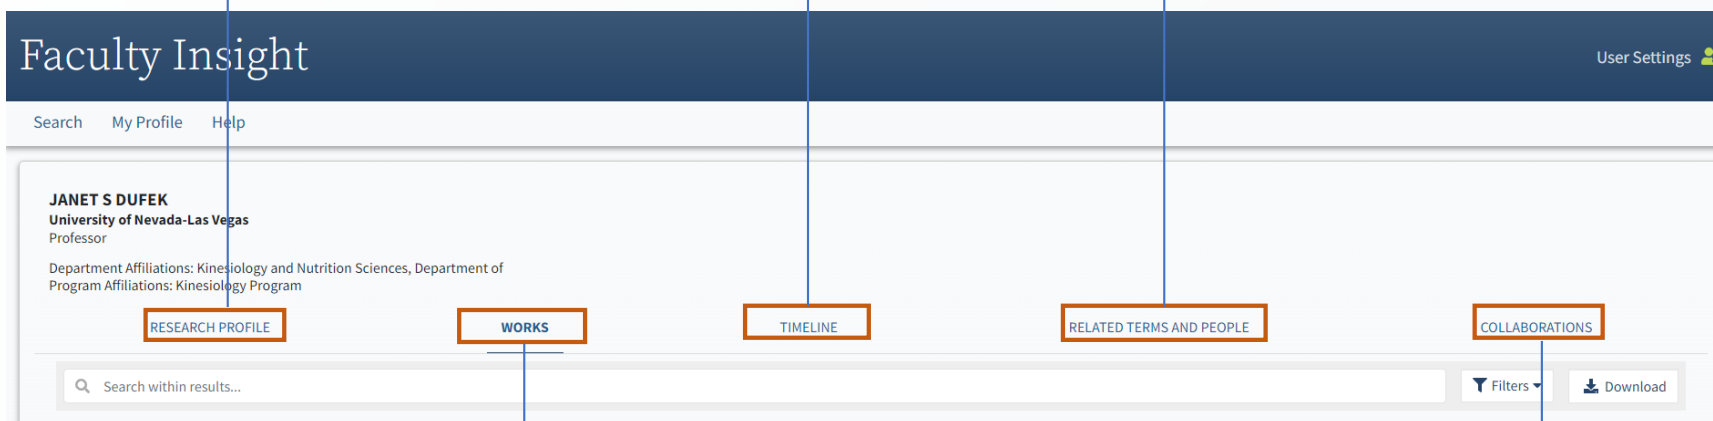

This tab summarizes the scholar's research interests and keywords.

Timeline

Here you can see the scholar's works based on when they were published, beginning with the most relevant.

Related Terms and People

View a word cloud consisting of key words that have been entered by the scholar as well as terms generated by Academic Analytics based on the scholar's research interests. You can also find a list of scholars from UNLV and other institutions in the U.S. who are doing work in similar areas.

Works

This tab includes journal articles, awards, book chapters, books, clinical trials, conference proceedings, grants, and patents on the scholar's public profile.

Collaborators

Find a graphic of the scholar's internal and external collaborations with other internal/external scholars, frequency of collaborations, and the details of the collaboration. Click on any connection to learn more.

My Profile

All users have a profile in the **Faculty Insight** tool. You can access your profile by selecting the **My Profile** tab. Scholar profile pages include **Research Profile**, **Works**, **Timeline**, **Related Terms and People**, and **Collaborations** tabs. These are displayed to individuals who search for you using the **Faculty Insight** tool.

Research Profile

This tab summarizes your research interests and keywords.

Timeline

Here you can view your works based on when they were published, beginning with the most relevant.

Collaborations

Find a graphic of your collaborations with other scholars, frequency of collaborations, and the details of the collaboration. Click on any connection to learn more.

Works

In order to provide a complete record of your works, the scholarly works information comes from an API integration with UNLV Folio and from Academic Analytics (AcA) sources. You can see the source of each work, choose which works are displayed publicly, and report any issues.

Related Terms and People

View a word cloud consisting of key words and research interests that you have entered on your profile. Under **Related Scholars**, find a list of internal and external scholars in the U.S. who are doing work in similar areas.

Research Summary

In the **Research Summary** text field, enter a self-generated short summary of your academic work.

Research Interests

Click the **+ Add research interest** button to self-populate your profile with your research interests.

Research Keywords

Use the **keyword types** dropdown to view, add, and remove keywords.

Home / Edit Profile

Edit Profile

Please update your profile to help yourself, and others, get the most out of Faculty Insight. Research Interests and Research Keywords factor into your recommendations and discoverability within Faculty Insight. All content will appear on your institution's Academic Analytics External Discovery Site if it has one.

Preferred Name ⓘ

Current Name: **JANET S DUFEK** [Edit](#)

Research Summary

Enter a short, plain-text paragraph that describes your academic work.

Research Summary...

Research Interests

Enter broad areas of academic interest (e.g. "macular degeneration," "medieval literature").

+ Add research interest

Research Keywords

Keywords are intended to be narrow terms associated with broad research areas (e.g. "drusen," "Beowulf"). You can add your own and remove generated keywords. Keywords are utilized to produce related scholars as well as suggested funding opportunities. Additionally, if your institution licenses an external discovery site, these terms will be shown to public users who may view your profile.

● Aca Keywords ● Self-entered Keywords

landing running gait strike lt bw vjl retraining extremity wetsuit grf landings accommodation height vjr foot walking shoe sti vertical during attenuation children jump weight

Select keyword types from the dropdown to view/add keywords and review/reinstate removed keywords.
