| | | | |

| COURSE | CREDITS | SEMESTER | GRADE | Verified (advisor use) |
|-------------------|---------|----------|-------|---------------------------|
| MATH 181 | 4 | | | |
| MATH 182 | 4 | | | |
| PHYS 180 or 195 | 3 | | | |
| PHYS 180L or 195L | 1 | | | |
| CPE 100 | 3 | | | |
| CS 135/L | 3 | | | |

*Please check one of the following:

____I am currently finishing my "pre-engineering" requirements needed for advanced standing this semester as indicated above. I understand that "conditional advanced standing" is being granted and will be checked after the current semester. If the requirements are not met at this time, I will be removed from those courses and I will lose the advanced standing status until I have met the requirements.

_____I have met all requirements for advanced standing

*Please note if you do not meet the **minimum GPA** requirement of a **2.0**, you will need to attach an explanation why you currently do not meet the minimum GPA requirement and your plan to increase your GPA. In addition, you must obtain the department chair's signature prior to submitting to the Advising Center.

Faculty mentoring is required prior to applying for advanced standing. One component of this mentoring is a review of your semester-by-semester graduation plan. If you do not have a recently updated plan that you have created and reviewed with your academic advisor you will need to schedule an appointment with your academic advisor to create the graduation plan before you will be able to meet with your faculty mentor for advanced standing approval.

This form will not be accepted by the Engineering Advising Center without the signed Faculty Mentoring form attached.

Student: _____

Academic Advisor:_____

*Dept. Chair:______ *Only required if you do not meet the minimum GPA

MAJOR:

This form is to be used in conjunction with the departmental advanced standing form for sophomorestanding students & is to be submitted with the signed advanced standing form to the Advising Center.

Faculty mentoring and academic advising both play pivotal roles in the retention, progression & graduation of students within a timely fashion, and should complement each other in their guidance to students. This guide is meant to direct faculty mentoring conversations with students at this critical point in each student's academic career, but can be used at any point the student is in need of faculty guidance. Please refer any questions related to semester schedules, graduation plans, college and university forms/paperwork, campus resources or other misc. academic issues to the Engineering Advising Center.

ADVANCED STANDING MENTORING: Please discuss any areas student responds in the negative and make appropriate referrals.

| Review the following areas related to student degree progression, degree elective options, | | | NO | |
|--|--------------------------|--|----|--|
| Review the following areas related to student degree progression, degree elective options, academic performance and goals. | | | | |
| 1. Does the student have a graduation plan that has been reviewed by the | eir academic advisor? | | | |
| (If student does not please refer them back to Advising and do not ap | prove the advanced | | | |
| standing request) | | | | |
| 2. Does the student have a full understanding of their major and the outc | comes of their degree | | | |
| post-graduation? | | | | |
| 3. Is the student confident in their academic ability to be successful mov | ring into 300-400 level | | | |
| coursework? (If no – provide referrals to academic advising & tutorin | g) | | | |
| 4. Does the student have any questions about how material they have lea | arned in the required | | | |
| advanced standing coursework will directly apply to their future course | sework within the | | | |
| program? | | | | |
| 5. Does the student have any questions about the content of their initial | major-related | | | |
| coursework? | | | | |
| 6. Has the student had the opportunity to have any hands-on experience | in either class/labs or | | | |
| student organizations that have allowed them to begin to apply the fun | ndamental principles | | | |
| that define their major? (If no – provide referrals to College of Engine | eering student | | | |
| organizations.) | | | | |
| 7. Is the student familiar with the core areas/concentration options available | able in their | | | |
| discipline? | | | | |
| a. Looking towards their junior & senior year, do they have any idea | what areas they wish | | | |
| to focus on for their profession/upper division electives? | | | | |
| b. Does the student have an understanding of the correlation between | their upper-division | | | |
| core and their future career options? (Please review core/fundament | tal areas of their major | | | |
| with them and how they can go about selecting classes that will be | in-line with their | | | |
| professional goals). | | | | |
| c. Based on this feedback, please discuss possible internship or resear | ch opportunities that | | | |
| might assist the student in learning more about/participate in their a | rea(s) of interest. | | | |
| 8. Is the student interested in graduate school? | | | | |
| a. Is the student aware of your department's graduate programs, and the integrated BS/MS | | | | |
| degree option (if available in your department)? (If no, please discu | | | | |
| b. Please review the areas that graduate programs look at when assess | ing applicants to | | | |
| graduate programs. Discuss with the student any areas that they mi | ght need to focus on | | | |
| to be a competitive applicant for a graduate program. | | | | |
