

Mountainsmith Trekking Poles

General Description

These durable trekking poles provide stability and balance on rock, trail, and scree, enabling more comfortable hikes. These poles have telescoping sections, allowing them to adjust to the terrain, and they're lightweight, making them convenient and easy to carry.

Features

- Three telescoping sections
- Spring loaded anti-shock system
- Twist lockout double cam adjustment
- Molded cork handle with adjustable wrist strap
- Hiking basket compatible
- Removable rubber tips for grip on different kinds of terrain

Specifications

- Collapsed length: 26.5"
- Extended length: 54"

- Weight: 1lb 3oz
- Hold Capacity: Up to 160lbs of loaded weight

Instructions for Use/Setting Up

For details on how to adjust and use these trekking poles, please see this video:

Reviews*

“These are good lightweight poles. The rubber tips are great when you need a little extra grip on some surfaces.”

“I really like these poles. They are incredibly easy to adjust and store at a much smaller size. The cork grip is super comfortable and I like the cap covers that go over the spikes.”

“Light, for optimal assistance, and the cushioning keeps your hands comfortable even after steep miles. I've taken these up some of the steepest trails in Utah and they haven't let me down.”
