Instructions for Setting Up

To set up canopy, remove the metal frame from the black bag. Spread the metal framing apart. Place the canopy cover over the top. Now raise the canopy from its legs. The legs should lock into place but the height can be adjusted to your liking.

Reviews*

"I bought this canopy for my Dad's antique market- I was concerned that the wind would take it away but this EZ up stood firm. It was convenient to carry (wheels are a wonderful addition) and simple to erect. My dad loves it so much he leaves it up on our deck and sits under it to watch the rain. The canopy is sturdy- no easy tears! It is the perfect size for a 6 person poker table or some lounge chairs. Definitely recommend for anyone who wants to enjoy the outdoors in any weather either for business or pleasure."

"This canopy is huge. We set it up just to see, but will be using this for all family get togethers. Very simple and easy to set up."
