ENGINEERING INTERNSHIP

Posting ID: IN1840857B

Company: Carollo Engineers

Position Type: Part-Time

Company Website: http://www.carollo.com

Work Location: Las Vegas

Salary: DOE

College Major(s): Civil Engineering (CEE)

College Level(s): Undergraduate-Freshman, Undergraduate-Sophomore, Undergraduate-Junior, Undergraduate-Senior, Graduate Student

OVERVIEW

Carollo Engineers is an environmental engineering firm that specializes in the planning, design, and construction of water and wastewater facilities. The firm was founded in Phoenix, Arizona, in 1933 and counts the City of Phoenix among one of our original clients—a working relationship more than 85 years old! From that single office with three engineers, Carollo has grown to more than 1,000 people in 42 offices throughout the United States. Our staff includes civil, structural, electrical, mechanical, environmental, and instrumentation and control engineers, as well as scientists, planners, architects, and CAD designers.

Cities, utilities, and special districts of all sizes count on Carollo to help them navigate through the increasingly complex challenges of cost-effectively and sustainably protecting public health; meeting local, state, and federal regulatory requirements; protecting the water environment; and addressing public expectations. Our core philosophy for success is to work collaboratively with our clients to find the best ways to protect and enhance our public water supplies and our lakes, streams, rivers, and oceans.

We recognize that water sustains life on this planet and clean, safe water sustains healthy ecosystems and healthy communities. Our employees are proud of our role in making the communities that we live in, work in, and serve, better places to live. We continually strive to emulate our mission statement of being: "The BEST water consulting firm in the United States."

Roles and Responsibilities

We are looking for a temporary Engineering Intern in our Las Vegas Office. The position will likely entail the following:

   Essential Duties and Responsibilities

• Perform elementary engineering assignments and work from the designs of others
• Compile data
• Perform elementary design computations
• Prepare engineering plans
• Perform simple CADD drafting assignments

Marian Mason | Internship & Career Services Coordinator | coecareer@unlv.edu | https://unlv.edu/engineering/jobs
UNLV, Howard R. Hughes College of Engineering
• Contact vendor(s) to obtain equipment information
• Perform quantity take offs to aid in cost estimating
• Work under close supervision of Professional Engineers
• Receive specific and detailed instructions as to required tasks and results expected
• Perform special projects and assignments as directed

Required Skills
• Strong verbal and written communication skills
• Proficient in Microsoft Word and Excel

Education and Qualifications
High School Diploma or equivalent
• Currently pursuing bachelors or masters degree in Civil or Environmental Engineering field, with a focus on water and/or wastewater treatment, infrastructure and/or resources
• Finishing or completed junior year of college
