ENGINEER INTERN

Posting ID: IN189314EE
Company: Parsons
Position Type: Part-Time
Company Website: http://www.parsons.com
Work Location: Las Vegas, NV
Salary: $15-$20 per hour depending on experience
College Major(s): Civil Engineering (CEE)
College Level(s): Undergraduate-Junior, Undergraduate-Senior, Graduate Student

OVERVIEW

Parsons is an international engineering consulting firm providing digitally enabled solutions focused on defense, security, and infrastructure.

Are you ready to advance your education and have an opportunity to work on urban construction projects?

Parsons is now accepting applications for an Engineering Intern who has a great attention to detail and ready to join a growing team, enhancing the fabric of our Southern Nevada community.

Roles and Responsibilities
In this role, under the direction of a degreed engineer, you will perform a variety of basic to moderately-difficult engineering support assignments requiring a fundamental knowledge of design/drafting standards, practices, and techniques. The intern student at this level typically takes engineering notes, specifications, rough sketches, etc. and formalizes them into working drawings. Assignments are designed to develop a practical knowledge of equipments, facilities, and systems, and their interrelationships within a particular engineering discipline.

Education and Qualifications
Must be enrolled in a civil engineering curriculum at an accredited college or university and have completed at least one year of studies. Literate in PC software, a working knowledge of CAD, and other computer software used to complete design studies.
