OVERVIEW

#CodeCentral is the place for youth (ages 8-16) to learn coding. A vibrant space specifically designed for creativity, collaboration, and learning to take place, we combine an innovative curriculum with self-paced learning and exciting group projects that challenge students as they learn and work together.

Our first Center will be opening soon in Henderson. We are currently hiring Coding Instructors to work with students individually and in small groups.

Roles and Responsibilities
Facilitate an innovative learning environment that enables students to develop critical thinking, problem solving, and collaborative skills
Engage students individually and in small groups
Facilitate a fun and challenging learning environment
Track student progress and communicate with parents
Contribute your creativity to the Code Central Team
Develop meaningful mentor relationships with students

Education and Qualifications
A passion for interacting with youth
Excellent communication skills
An engaging and friendly personality
An understanding of the challenges involved in learning to code
Impeccable responsibility and punctuality
Previous programming experience
Strong background in computer science, mathematics and/or logic
