CONSTRUCTION ENGINEER

Posting ID: IN19329493

Company: Innovative Air

Position Type: Full-Time

Company Website: http://www.innovativeair.co

Work Location: Las Vegas

Salary: $14/hr

College Major(s): Construction Management (CEM), Mechanical Engineering (ME)

College Level(s): Undergraduate-Junior, Undergraduate-Senior

OVERVIEW

Innovative Air is a medium sized HVAC construction company capable of all aspects of HVAC including chillers, boilers, VRF, and packaged units. We are looking to eventually hire an estimator and project coordinator.

Roles and Responsibilities
We are looking to teach the right candidate how to commercially estimate HVAC for new construction. Eventually we look forward to you completing 85% of a bid and then learning the final checks and balances. Additionally we want to teach you ductwork manufacturing in our shop so that you can draw ductwork fittings to put into production. Lastly we want to teach you the many phases of project management and coordination.

Education and Qualifications
GPA 3.8 or greater is expected. Reference letters from previous employers/UNLV instructors. Understanding of mechanical blueprints and plans in addition to how they correlate with structural, electrical, and plumbing.

Preferred Skills
Understanding Excel is critical. Multitasking is important. Ability to follow through and ensure task completion.

How to Apply
Please submit resumes to: eric@innovativeair.co
