Welcome New Students

The Division of Health Sciences (DHS) comprises three schools: Allied Health Sciences, Community Health Sciences, and Nursing.

The Health Sciences Advising Center provides academic guidance and helps students plan their coursework at UNLV. Your academic advisors will verify that your degree requirements are completed to ensure your timely graduation.

To get started, complete the following steps:

1. Activate your Rebelmail email account.
2. Activate your MyUNLV account.
3. Register for New Student Orientation (NSO). Go the "Student Center" in your MyUNLV account and click on the "Register for Orientation" link.
   
   Freshmen are required to attend NSO before meeting with an academic advisor. Email orientation@unlv.edu if you have any questions.
4. Submit official ACT/SAT for MATH/ENG placement and/or AP scores to UNLV Admissions Office.
5. Submit transcripts for any college you may have attended to UNLV Admissions Office.

Transfer students must schedule an appointment with an advisor before registering for their first semesters at UNLV.

If you have additional questions, call the Health Sciences Advising Center main office: (702) 895-5448.
