BIOMARIN - MANUFACTURING TECHNICIAN & ASSOCIATE IN NOVATO, CA (VIA WAYUP)

Posting ID: EM16A02232

Company: BioMarin

Position Type: Full-Time

College Major(s): Mechanical Engineering (ME)

College Level(s): Undergraduate-Freshman, Undergraduate-Sophomore, Undergraduate-Junior, Undergraduate-Senior, Graduate Student, PhD. Student

Work Location: Novato, CA

OVERVIEW

BioMarin is a global pharmaceutical company focused on developing first-in-class and best-in-class therapeutics that provide meaningful advances to patients who live with serious and life-threatening rare genetic diseases.

Roles and Responsibilities

** Please note ** This position is for an initial six month term with the possibility of additional time and/or conversion to full-time employee.

BioMarin’s Novato commercial manufacturing operations produce recombinant enzyme replacement proteins using perfusion based mammalian cell culture processes and multiple column purification systems. You will be responsible for job functions that support activities for commercial manufacturing and will work on a shift with 6 – 10 peers.

Responsibilities include:

- Preparing large scale solutions (buffers and media)
- Managing raw material inventory
- Operating process equipment while supporting daily operations
- Ensuring compliance with current Good Manufacturing Practice regulations (cGMP), Standard Operating Procedures (SOPs), product licenses, corporate policies and safety practices.

- Perform cleaning and sterilization of parts and equipment used with manufacturing process

This is a great opportunity to demonstrate your ability to learn biopharmaceutical manufacturing processes including mammalian cell culture, depth filtration, tangential flow filtration, column chromatography, protein purification and formulation of bulk drug substance.

**Education and Qualifications**

*Bachelor’s degree (for Associate level) in science related area or engineering or Associate’s degree (for Technician level) in science related area is required.*

This position is an amazing fit for someone who is:

- Looking to start their career at manufacturing career at a Forbes’ most innovative company (#10!)

- Looking to start your career at a smaller biopharmaceutical company where you can really make an impact

- Looking to get experience to help transition to a larger biopharmaceutical company in 2-3 years.
