### OVERVIEW

Our company provides a fully integrated solution for many industries from equipment to controls to management software. Headquartered in a rural community in MN, we have stayed loyal to our roots, values, and work ethic.

Our employees have been working in the automation industry for almost thirty years, and our solutions have been helping customers for just as long. At Easy Automation, we believe in the importance of family, and that attitude translates to how we treat our customers. Our talented staff truly cares for our customers, and we strive to provide the best solution for you every time. Our passion for the industries we serve drives our entire organization. We come to work every day ready to address the challenges that face our customers. That is why we do what we do.

Our products and our people are what make us stand out. Our unique and totally integrated solution structure can give you everything you need while making your operation run smoother than ever before. Flexibility within our products means that they can be tailored specifically to your needs. Because we know that your business is your livelihood, we make ourselves available 24/7/365 to keep you running at your best. In this industry, lost time is lost opportunity. Getting a real person on the phone within minutes of needing help is what sets us apart from the rest.
