**OVERVIEW**

SDG&E® lit its first lamp on San Diego streets in 1881. Today, SDG&E is an innovative San Diego-based electric and gas utility that is guided by its mission to improve lives and communities by building the cleanest, safest and most reliable energy company in America. It provides safe, reliable and clean energy to its 3.6 million consumers in San Diego and southern Orange Counties.

**Roles and Responsibilities**

An entry level engineer position which provides the inexperienced engineer an opportunity to acquire experience and proficiency in performing fundamental engineering work. In this capacity, the incumbent shall perform the more routine and basic duties and will be afforded the opportunity to acquire experience and be productive through varied assignments normally accomplished through intra¬company assignments. Perform a variety of engineering assignments, involving electrical, mechanical, civil or other engineering principles, such as:

1. Prepare engineering computations required in carrying out assigned duties.
2. Investigate and analyze problems, and develop appropriate solutions.
3. Conduct tests of instruments, materials, equipment and controls to determine operating characteristics.
4. Prepare reports and write instructions and/or procedural outlines in connection with assignments.

**Education and Qualifications**

Bachelor's Degree in Electrical Engineering

**Preferred Skills**

Electrical Engineering degree preferably with a focus in Power

**How to Apply**

Send resume and cover letter to LZelkind@semprautilities.com
