OVERVIEW
Project Engineering Consultants (PEC) is a full-service civil engineering firm seeking an entry level part-time Civil Engineer in our Las Vegas, Nevada office. Successful candidates should have an interest in and have started their education in civil engineering degree. Must be eager and willing to learn new engineering skills associated with working on water/wastewater, transportation and drainage projects. This employment opportunity has the potential to extend past the end date listed.

Roles and Responsibilities
• Utility pipe defect coding and logging.
• Help prepare design plans for water, sewer, drainage systems, roadways, and utilities.
• Help prepare cost estimates and material needs for projects.
• Assist in the completion of studies and preparation of written reports for clients.
• May work individually or participate as part of a team for larger scale projects.
• A wide degree of creativity and latitude is expected.
• Will be required to work some nights and possibly weekends (occasionally) depending on workload and project schedule.
• Will be required to work in the field.

Education and Qualifications
Good standing in a Civil Engineering program at the Freshman to Senior level.

Preferred Skills
AutoCAD knowledge and experience is a plus
GIS knowledge and experience is a plus
Must be familiar with Microsoft Word and Excel, GIS knowledge
