Company: L.R. Nelson Consulting Engineers  
Company Website: lrnslc.com  
Job Title: Engineering Intern  
Work Location: Las Vegas, NV  
Position Type: Internship  
Salary: N/A  
College Major(s): Civil Engineering  
College Level(s): Graduate Students

OVERVIEW
L. R. Nelson Consulting Engineers is currently seeking an Entry Level Engineering Intern to join our organization in the Drainage Engineering Department. The position will include conducting research, preparing storm sewer design, hydraulic design, hydraulic studies, BMP plans, and drainage design and site drainage reports. You will work with project managers to coordinate flood control infrastructure for public and private development projects. Ability to work as a team player and independently in a fast-paced environment is necessary.

Position Requirements:

B.S. in Civil Engineering or to graduate 2016. Current Engineering Intern certification preferred. Strong work ethic, self-motivated and capable of independent work, but demonstrated ability to work on project teams. Strong writing and document skills a must; strong Microsoft Office skills, particularly related to technical documents (Word, Excel, PowerPoint). This is a fulltime position is located in our Las Vegas, Nevada office.

Interested persons should send a resume via email or fax to the contact listed below. This position will be filled quickly and as such interested parties are encouraged to apply at the earliest opportunity.
