Company Website: https://www.lvwwd.com/jobs/jobs.html

Work Location: 1299 Burkholder Blvd.

Salary: DOE

College Level(s): Undergraduate-Freshman, Undergraduate-Sophomore, Undergraduate-Junior, Undergraduate-Senior, Graduate Student

OVERVIEW

Reliable, quality water. Service. Sustainability. That's what the Las Vegas Valley Water District (LVVWD) has delivered to our desert community for more than 60 years.

A not-for-profit utility, LVVWD began providing water in 1954 to a service area of around 45,000 residents.

In the more than 60 years since, change has been the only constant. The Water District has kept pace, building and responsibly maintaining the city's water delivery system and serving customers through periods of extraordinary growth and community development—using sustainable technologies such as solar power and alternative-fueled fleets to increase efficiencies and manage costs of water delivery in the desert.

Roles and Responsibilities

INTRODUCTION: Human Resources will screen applications and materials requested in supplemental questionnaire. Candidates meeting the eligibility requirements will be forwarded to the hiring department for further review and to determine who will be interviewed. The successful candidate will be required to pass a drug screen and background check.

GENERAL PURPOSE: Under direct supervision, provide support for water quality and treatment projects.
Education and Qualifications
ELIGIBILITY REQUIREMENTS: Current enrollment within an undergraduate or graduate degree program related to Civil Engineering and Environmental Engineering.

- Current enrollment with a minimum of nine credit hours per semester for undergraduate students, or a minimum of three credit hours per semester for graduate students.
- Available to work up to twenty-five hours per week Monday through Thursday.
- US citizenship or legal right to work in the US, including authorization to work off campus.
- A valid driver’s license and the ability to maintain insurability under the Water District
