OVERVIEW

Reliable, quality water. Service. Sustainability. That's what the Las Vegas Valley Water District (LVVWD) has delivered to our desert community for more than 60 years.

A not-for-profit utility, LVVWD began providing water in 1954 to a service area of around 45,000 residents.

In the more than 60 years since, change has been the only constant. The Water District has kept pace, building and responsibly maintaining the city's water delivery system and serving customers through periods of extraordinary growth and community development—using sustainable technologies such as solar power and alternative-fueled fleets to increase efficiencies and manage costs of water delivery in the desert.

Roles and Responsibilities
Human Resources will screen applications and materials requested in supplemental questionnaire. Candidates meeting the eligibility requirements will be forwarded to the hiring department for further review and to determine who will be interviewed. The successful candidate will be required to pass a drug screen and background check.

The position will be assigned to aggregate and reconcile project costs. Further, they will assist in devising Programmatic Cost Curves for project estimating.
