BUREAU OF RECLAMATION INTERNSHIP

Posting ID:
Company: Bureau of Reclamation
Job Title: Civil Eng./Hydrologic, Data
Position Type: Intern
College Major(s): CEE, CEM

Website: www.usajobs.gov
Work Location: Boulder City, NV
Salary: $25,776 - $33,508.00 (GS-03) +
College Level(s): Any

OVERVIEW
Develop your civil and hydrologic engineering, geospatial and data analysis skills working with the U.S.’s largest wholesale water supplier. Reclamation is a contemporary water management agency. Reclamation is best known for Hoover Dam on the Colorado River, Grand Coulee Dam on the Columbia River and Folsom Dam on the American River. Today we are the largest wholesaler of water in the country and the second largest producer of hydroelectric power in the western United States. The Lower Colorado Region includes offices in Arizona, southern California and Nevada. The following is a brief description of an upcoming vacancy:

Roles and Responsibilities
• Helps prepare technical data, studies, and evaluations in support of mission requirements, including building basic data analyses, visualizations and story maps.

• Assists in the performance of engineering studies and analysis by analyzing and presenting data in accordance with established methods. Data and studies relate to hydrology, geospatial information and web applications in those areas.

• Uses commercial drafting, database, spreadsheet, scheduling illustration and word processing software in the performance of the duties listed above, including formulating basic data processing applications.

• Helps complete on assignments involving the practical application of the principles, concepts, work processes, regulations.

• Gathers and develops data related to the organization’s mission and processes data according to established methods and designated formulas using algebra, geometry and arithmetic.
Qualifications and Education Requirements

Unknown. See website.
