OVERVIEW

GCW is a professional engineering/surveying consulting firm incorporated in 1969. In our 50 years, GCW has been a leading provider of a complete range of services related to civil engineering (traffic and transportation engineering, land development, airport design, water/wastewater, hydraulics, flood control), structural engineering, and land surveying.

Roles and Responsibilities
As a Project Manager at GCW, you will provide administrative and technical management on engineering/construction projects, from bid preparation through final acceptance by client. You will plan, coordinate, and direct on a variety of large and complicated engineering projects or on a number of smaller projects with many complex features.

Education and Qualifications
Bachelors of Science degree in Civil Engineering is required. Minimum four (4) years of experience in engineering design and/or project management. Nevada PE or the ability to obtain within 6 months of hire.

Preferred Skills
Strong AutoCAD Civil 3D software skills.
