Company: ASHBA Media

Position Type: Per project based work

Company Website: http://www.ashbamedia.com

Work Location: Las Vegas

Salary: Wage will depend on experience and the budget for each project

College Major(s): Mechanical Engineering (ME), Electrical/Computer Engineering (EE/CpE), Entertainment Engineering (EED)

College Level(s): Undergraduate-Sophomore, Undergraduate-Junior, Undergraduate-Senior, Graduate Student, PhD. Student, Alumni

OVERVIEW

We are a scenic fabrication company that produces unique assets for a variety of industries including trade shows, theatre, permanent exhibits, TV Shows and the entertainment industry in general. Many of our clients require the integration of lighting, AV or other technological elements. On occasion we are asked to include some form of automation or robotics. When a project calls for something that is not typical of what we normally produce, we bring in outside experts. This particular project involves developing a modern version of a vintage love tester arcade machine.

Roles and Responsibilities
The ideal candidate will have a comprehensive knowledge of electronics / mechatronics, excellent problem solving skills, and the ability to set a timeframe for a project and be able to stick to it.

Education and Qualifications
Candidates must have completed their first year of classes and be actively pursuing (or have completed) a degree in a related field.

How to Apply
Please email letters of interest, resumes or questions to lisa@ashbamedia.com

OUR APPROACH

We strive to provide the very best in innovative design, superior fabrication, and excellence in customer service. We work with our clients from initial
concept ideas, through research and development to fabrication, and finally 
delivery and installation. Our clients hold the model for our inspiration and 
innovation. ASHBA collaborates with each individual client to deliver the 
most amazing, one of a kind items for their events, exhibits or special needs. 

Initial meetings and site visits are held to formulate the most effective 
solution to develop an understanding of your objectives and goals. We strive 
to give you a comprehensive plan to incorporate your product education and 
social media engagement solutions.

At ASHBA, we use state-of-the-art robotic technology in unison with human 
artistry, to create world class assets for our clients. Nothing compares to the 
precision and quality when combining human and artificial intelligence.
