**Posting ID:** EM20418546

**Company Website:** https://www.zurifurniture.com/

**Company:** Zuri Contemporary Comfort

**Work Location:** Dallas, TX

**Position Type:** Full-Time

**Salary:**

**College Major(s):** Computer Science (CS)

**College Level(s):** Undergraduate-Senior, Graduate Student, PhD. Student, Alumni

**OVERVIEW**

Zuri, a fast-growing retailer and etailer, is looking for an experienced and talented individual for a Product Manager position within the eCommerce division. This is an opportunity to be on the ground level of a quickly growing organization.

In this role, you will be the gatekeeper for Zuri’s digital product, responsible for regularly analyzing and optimizing the Digital Platform. Working with the engineering and design teams for all changes to the web and related software systems. We are looking for an individual with excellent technical and management skills to grow with our organization. This position has a significant amount of control over the direction, features, and design of the Zuri eCommerce experience.

Position includes group health insurance benefits, PTO, team building events, and ongoing career training and development.

**Roles and Responsibilities**

- Work with the engineering team to develop and implement improvements to the Zuri website
- Review, prioritize, and manage the correction of site bugs and fixes
- Supervise all site changes and revisions for sales and promotion rollouts
- Procure and implement new software and technology packages
- Manage existing software systems which support core Zuri functions such as Order Management, Fulfillment, and Point of Sale
- Work with IT support to ensure software systems run smoothly company-wide
- Collaborate with Design and Marketing departments to implement and execute email marketing campaigns
- Lead all integrations with 3rd party software through API clients
- Monitor improve site speed / performance
- Manage all technical 3rd party vendors related to the site including CDNs and on-site
Education and Qualifications
Proven record of success in a Product Management role (2+ years of experience)
Bachelor’s Degree, degree in CS preferred
Strong knowledge of web technologies such as HTML, CSS, jQuery, AJAX, PHP, and LAMP systems
Experience in Hubspot, Magento and Netsuite ERP
Strong sense of UI/UX design
Microsoft Excel and VBA skills
Ability to work in a fast pace, quickly changing environment
Analytical mindset with strong attention to detail
Strong interpersonal skills, including the ability to work effectively with all organizational roles
Willingness to work in many areas of a quickly growing business
Startup experience preferred

Preferred Skills
This position is based at Zuri’s Corporate Headquarters near the Galleria mall in Dallas
Opportunity for remote work / remote employment
Full time position reporting to senior management
Competitive salary and benefits based on experience
