Posting ID: IN1760754E

Company: Great Lakes Dredge & Dock Company

Position Type: Full-Time

College Major(s): Mechanical Engineering (ME), Computer Science (CS)

Company Website: http://www.gldd.com/

Work Location: Oakbrook, IL (If selected, company will pay for transportation to Oakbrook)

Salary: $17/Hr + Housing + $40/Day Subsistence

College Level(s): Undergraduate-Sophomore, Undergraduate-Junior, Undergraduate-Senior, Graduate Student, PhD. Student

OVERVIEW

Great Lakes Dredge & Dock Company (GLDD) provides marine dredging and engineering services that help shape the environment as well as provide transportation resources of communities across the world, including America’s largest cities and busiest ports.

Roles and Responsibilities

Great Lakes Dredge & Dock Company (GLDD) is seeking an undergraduate or graduate engineering or computer science student to work as a research intern in their Oakbrook, IL office. The position could start immediately and last through mid-August or the Fall 2017 semester. GLDD will provide housing and transportation to Oakbrook as well as $17/hr plus $40/day subsistence. Topics of the research are not set, but will likely include CSD spillage, software development or other items as required.

Education and Qualifications

Must be currently enrolled in a Computer Science or Mechanical Engineering program.

How to Apply
