SOFTWARE ENGINEERING INTERN

Posting ID: IN182271F4

Company: V Shred

Position Type: Part-Time

College Major(s): Electrical/Computer Engineering (EE/CpE), Computer Science (CS)

Company Website: http://www.vshred.com

Work Location: Las Vegas

Salary: TBD

College Level(s): Undergraduate-Junior, Undergraduate-Senior

OVERVIEW

V Shred is looking for a rockstar intern to join our Tech Development Team here in Las Vegas, NV. The Tech Dev Team is paramount to the success of V Shred. Responsibilities for this role will range across a wide variety of projects including the continuous maintenance and optimization of current systems to driving the development of new programs and products.

The right candidate for this role should have excellent analytical and math skills, with the ability to collaborate and work with a fast-paced dynamic team. You will finish the internship having gained broad experience of the inner workings of ecommerce development, coding, debugging and design.

Roles and Responsibilities
- Documentation and testing new software applications
- Assist in the resolution of technical issues and analysis
- Assessment of new application ideas
- Research competitor offerings
- Design, develop, code and test software systems or applications for software enhancements and new products; revise and refine as required

Education and Qualifications
- Passion for exploring and experimenting with the latest software technologies
- Solid understanding of data structures and algorithms
- Knowledge of software engineering processes, troubleshooting and debugging skills, agile framework, and familiarity with object-oriented programming concept
- A strong interest in learning the Product Development process
- Strong proficiency in MS Excel/Google Sheets
