OVERVIEW

Station Casinos is looking for a Senior Web Programmer.

Roles and Responsibilities
- Design, develop and write web applications to provide business value and interface with various new and legacy systems either integrated or desperate.
- Work in a lead position with other Web Programmers to complete projects.
- Mentor other Web Programmers to build their skills and work-related knowledge and abilities.
- Perform responsibilities in accordance with all Company standards, policies, and procedures.

Education and Qualifications
- BS in CS or equivalent work experience in a corporate enterprise level environment.
- 5+ years of web development experience with demonstrable proficiency in modern development languages including HTML5, Angular and JavaScript.
- Deep knowledge of object oriented design and programming (OOP) techniques.
- Deep knowledge of modern API protocols including REST and SOAP.
- Self-motivated with the ability to meet deadlines with minimal supervision.
- Knowledge of MS SQL Server, T-SQL and stored procedures. Strong understanding of relational database structures, theories, principles, and practices.
- Knowledge of NoSQL database structures, theories, principles and practices.
- Ability to communicate effectively with Guests, Team Members and Management in both written and verbal form.
- Must have excellent communication skills.
- Must be able to work on call as required.
- Must be able to provide your own transportation.
- Experience working in a team-oriented, collaborative environment.
