STUDENT PROGRAMMER

Posting ID: EM1770844E
Company: University of Nevada, Las Vegas
Position Type: Part-Time
College Major(s): Electrical/Computer Engineering (EE/CpE), Computer Science (CS)

Company Website: 
Work Location: NA
Salary: $15-$25 / hr depending on the qualification
College Level(s): Undergraduate-Sophomore, Undergraduate-Junior, Undergraduate-Senior

OVERVIEW

Seeking an undergraduate or graduate student for developing an iOS-based application. In the development of the application, the student will use a SDK provided by a Bluetooth Low Energy (BLE) sensor vendor. The major goal is to prepare the system to collect and process BLE data for computing proximity levels and/or positions of a target. All required materials for developing an iOS-based app will be provided.

Roles and Responsibilities
Most of the codes are already developed, so the major responsibilities will be tweaking and checking the system. The student will be required to report the progress to the professor on a weekly basis.

Education and Qualifications
Demonstrated skills and experience in coding and mobile app development.

Preferred Skills
iOS coding, Xcode, Swift or Objective C.

How to Apply
Send resume and a statement of 2-3 paragraphs regarding applicant qualifications to:
jee.park@unlv.edu
