ENGINEERING STUDENT SUMMER INTERN

Posting ID: IN1831342C
Company: RCI Engineering
Position Type: Part-Time
College Major(s): Civil Engineering (CEE)
College Level(s): Undergraduate-Senior, Graduate Student

OVERVIEW
RCI Engineering has been providing planning and civil engineering services on land development projects for the past 10 years. We are currently looking for an engineering student who would like the opportunity to learn from our experienced principals with over 40 years combined experience.

Roles and Responsibilities
RCI Engineering is seeking an undergraduate or graduate student majoring in civil engineering who is knowledgeable in AutoCAD to design land development projects. The company seeks an individual who is ready to start putting their classroom work into practice by participating in various stages of civil design work. Individuals should be prepared to work in a fast-paced, fun, team environment, and will gain broad experience in various aspects of civil engineering not discovered in your coursework. This position is focused on design and development of plans and drawings, primarily for residential and commercial land development projects, which may include the development of preliminary layout and/or final drawings of roadways, sanitary sewer lines, storm drains, waterlines, and grading.

Education and Qualifications
Basic knowledge of AutoCAD, Civil 3D preferred; BS Civil Engineering
